

A hundred Oxbridge scholars with doctorate degrees undertakes business projects in China

1. Objective:

This event is a collaborative event hosted by Western Returned Scholars Association with the purpose to assist oversea scholars in the process of achieving the “Chinese Dream” of starting up businesses during this up-surgng innovative era in China. This event provides a platform for Oxbridge scholars to introduce advanced technology and qualified personnel from abroad and to become more informed about overseas preferential policies for start-up businesses. Scholars will be given opportunities to “test the waters” of the investment environment in China and will be given platforms to seek opportunities for possible business project cooperation.

2. Conference:

This conference, China UK Technology Innovation and Entrepreneurship Forum, invited specialists from University of Oxford, University of Cambridge, Chinese Academy of Sciences, Tsinghua University, and Peking University to discuss innovation and entrepreneurship opportunities. This discussion will involve the three aspects of innovation: the innovator, the industrial district and investment companies. Among the pool of project plans, three most outstanding project plans will be nominated by specialists and reviewed by risk investment companies. Selected creative and innovative doctors with mature project plans will be delivered to Western Returned Scholars Association Tianjin Entrepreneurial College.

3. Organizer:

Host: Western Returned Scholars Association

Organizer: Technology and Management Centre for Development (TMCD), Oxford University. District Committee and Municipal Government of Tianjin Binhai New Area, District committee and Municipal Government of Shenyang, District Committee and Municipal Government of Changchun and the District Committee of Zhongguan village, Beijing.
